Teacher Feedback Report

Teacher feedback can drive professional development and foster college-wide improvement. Professors and advisors have a wealth of knowledge—use that knowledge to move closer to your goals. Feedback is designed to bring about an improvement in learners' performance and achievement.

- Help to identify areas where the curriculum may need to be revised or updated to better meet these standards.
- Teachers should focus more on group discussions so that students can increase attention and help maintain their focus by involving them in the learning process.
